

CUSTOM TRUSSES

Features a fully computerized and automated linear saw for superior accuracy. We exclusively use all Machine Rated Lumber (MSR) in both Spruce Pine Fir (SPF) and Southern Yellow Pine (SYP) for the highest quality product. We also use ITW (Alpine) software and truss connector plates. Our software provides clear roof layouts with 3D capabilities.

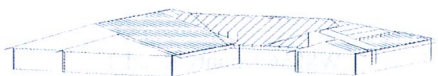

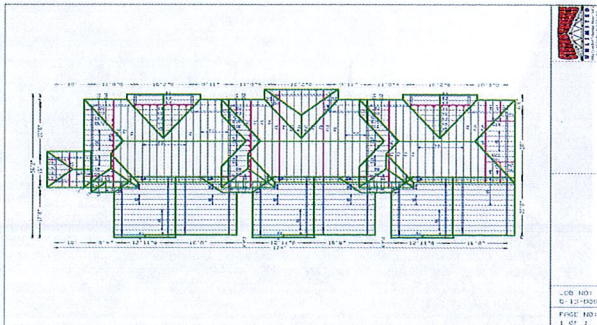

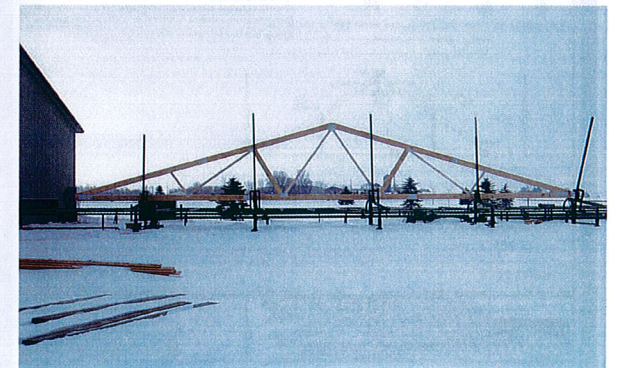

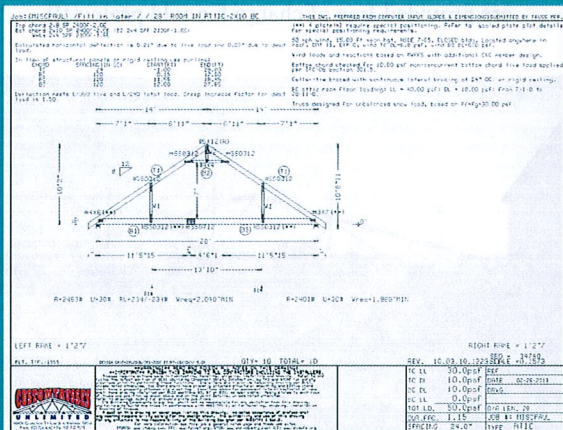

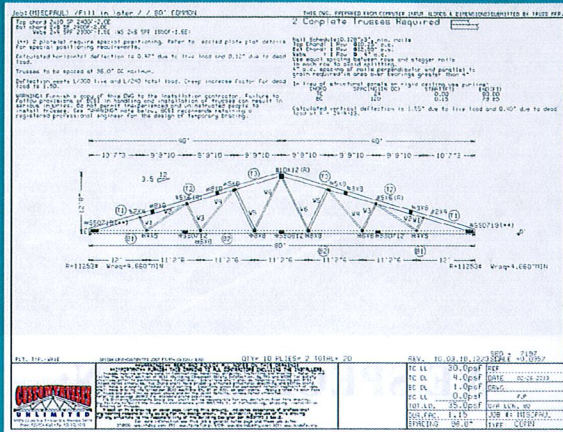

MODERN ASSEMBLY PLANT

We have modern steel top table and roller press along with a finish press to ensure proper plate embedment. Trusses are then sent out to our automated truss stacker to prevent handling damage after production. We can use either a flatbed trailer or roller bed trailer for ease of unloading. We can ship to any location!!

WE SPECIALIZE IN:

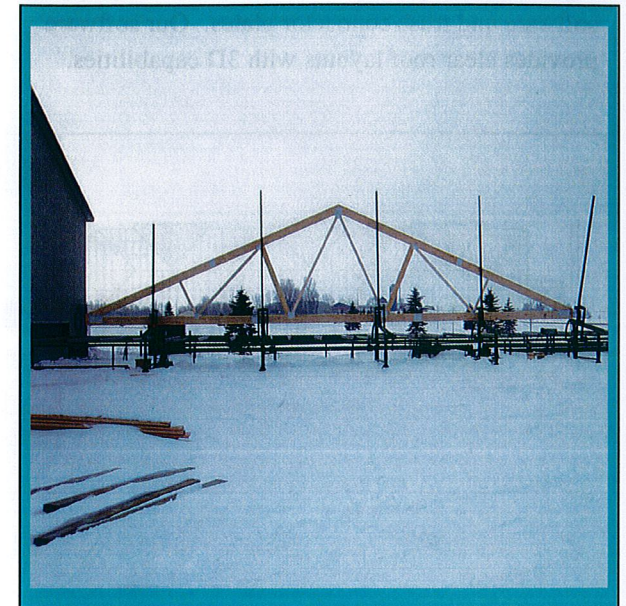

Commercial, Agricultural, Residential and Post Frame roof trusses. Commercial truss prints and calculations are provided free of charge for sold projects!!

Custom Trusses Unlimited is now open for business. We specialize in Commercial, Agricultural, Residential and Post Frame Roof Trusses. We are exclusively using all machine rated lumber (MSR) in both Spruce Pine Fir (SPF) and Southern Yellow Pine (SYP) for the highest quality product. WE also use ITW (Alpine) software and truss connector plates. Our software provides clear roof layouts with 3D capabilities.

The truss plant features a modern fully automated linear saw for superior accuracy. We have a steel decked truss table and a finish roller to ensure proper truss plate embedment. We use an automated truss stacker to prevent handling damage after production. We can also ship to any location!! We can use either a flatbed trailer or roller trailer for ease of unloading.

We have 28 years of truss design experience and look forward to providing you with the finest quality product. We can provide you with detailed layouts and truss designs for ease of field erection. We can also provide any hangers needed to complete your project.

We look forward to quoting your next project. For prompt service You can either call, fax or E-mail me directly at ppogrant@custom-trusses.com

Sincerely

Paul Pogrant

Truss Manager
